Novation Wireless Access Control Solutions now available to L & R Group of Companies

Westlake Village, CA, March 24th, 2008 – Novation Wireless Security Systems, LLC, manufacturers of high-security access control systems for wireless applications, announces its alliance with the L & R Group of Companies, one of the largest parking property owners in the nation.

Charles Bassett, VP of Operations of L & R Group of Companies said, "We are very excited about adding Novation's wireless system to our existing solutions. Novation's wireless system fits nicely with our existing parking locations as well as in the hotel and hospital parking sectors".

Novation Wireless Security Systems, LLC provides revolutionary technology which drastically reduces installation cost without sacrificing security. Novation CEO and President Joe Maskrey stated, "We are very excited to start working with L & R on their existing properties and future projects nationwide."

L & R Group of Companies approved vendors and manufacturers are required to meet several criteria. They must be an established company with a proven, tested product along with quality customer service and technical support.

About L & R Group of Companies

The L&R Group of Companies ("L&R"), headquartered in Los Angeles, is a privately held organization that operates three distinct parking divisions: Five Star Parking, WallyPark and Joe's Auto Parks. L&R recently acquired System Parking adding them to their family. L&R now operates in 28 cities spanning 17 states from coast to coast with approximately 5,000 employees and has grown into one of the largest parking property owners in the nation.
